

your internal practices with regards to the use of the Entity Handling Procedure, especially for AI's, QMs and Trainers?

- Please explain your understanding of the term "deceptive recruitment"? Do you feel your organisation practices deceptive recruitment?
- Why are "transgressions" such an integral part of your organisation as people move up your hierarchy and why are regular write ups demanded by Avra and Trainers?
- How are these 'write ups' used to control and take hold of a Masters reality? At what stage in your practices does a Master lose all control of their life? Please explain at what level in your hierarchy this is happening?
- When did we give you permission to keep all of our confessionals, written up transgressions and success stories on file? How are our personal folders and information used within your organisation and who are they shared with?
- Are you aware of the laws and regulations with regards to the keeping and sharing of our private and confidential information? As a 'for profit' enterprise, how are these implemented within your organisation? What systems do you have in place?
- Please explain your use of Situation Reports regarding your critics which are freely distributed within your organisation:
 - o What is a Situation Report?
 - o What is the purpose of a Situation Report?
 - o What information do you include in your Situation Reports?
 - o Where do you get the information from which you include in your Situation Reports?
 - o How do you clarify the personal information you put into your Situation Report?
 - o How do your Situation Reports relate to your term Avatar Basher?
 - o How do you assess whether someone is an Avatar Basher or not?
 - o Who else do you involve in this assessment?
 - o Is the person you term an Avatar Basher aware of your assessment and the information you are spreading about them?

To illiterate, you are harming people and exploiting people for your own financial gain: this is now obvious. None of us signed up for the type of abuse, deception and exploitation your organisation has generated.

We all deserve answers. We are not "lesser" human beings than you are!

We look forward to getting a response.

Regards

Amanda
